

PAPER BALERS

Paper balers are also called cardboard balers or mill size balers. They are widely used to compress and recycle waste paper, cardboard, OCC, ONP and plastic waste etc. The wide material feeding size ensures efficient material feeding.

When the ram goes up, the wide feed opening door automatically lifts upwards. The waste are fed into the chamber with the help of a wide feed opening size.

SPECIFICATIONS

Model	300LE11070	400LE12080	500LE15076
Hydraulic Power	30tons	40tons	50tons
Motor Power	5.5kw	7.5kw	11kw
Feeding Size (L*H)	1100*400mm	1200*500mm	1500*500mm
Baling Chamber Height	1400mm	1500mm	1600mm
Bale Size (L*W*H, H is adjustable)	1100*700* (500-1000)mm	1200*800* (600-1000)mm	1500*760mm* (600-1200)mm
Bale Weight	150-300kgs	200-350kgs	300-600kgs
Machine Weight	1900kgs	2200kgs	2800kgs
Machine Overall Dimension	1500*1100 *2900mm	1600*1200 *3000mm	2000*1200 *3100mm

FEATURES

- ▶ Auto upward feeding door ensures quick material feeding so that enhance the work efficiency
- ▶ An automatic chain bale ejector is equipped for efficiently and effectively ejecting the bales out from the baler chamber
- ▶ The ram will stop running downwards when the feeding gate is opened which ensures the safety of the operation
- ▶ Equipped with independent emergency stop for safe operation
- ▶ Special ram guides design makes the platen not slope because of uneven materials feedings during compression
